About

Established in 1948, the American Academy of Neurology (AAN) is the world's largest association of neurologists and neuroscience professionals, with 38,000 members. The AAN is dedicated to promoting the highest quality patient-centered neurologic care. A neurologist is a doctor with specialized training in diagnosing, treating and managing disorders of the brain and nervous system such as Alzheimer's disease, stroke, migraine, multiple sclerosis, concussion, Parkinson's disease and epilepsy.

Due to the dynamic nature of medicine, AAN members need to stay current with the latest technology and research. They are an ideal target audience for a variety of offers and high-ticket items to help build, support and enhance their profession.

Note: Use of the AAN member list for surveys is not permitted, and AAN member email addresses are **not available** for rental.
